Housing Water and Sewer Systems**

**FY2003 Request: \$89,000
Reference No: 35707**

PROJECT DESCRIPTION:

This project request will replace the Bethel Aircraft Hangar fuel tank and replace the rural trooper housing water and sewer systems in Aniak and Nenana.

PROJECT NEED:

Fuel tank replacement at the Bethel aircraft hangar.

Rural Trooper Housing - Aniak Sewer Line--Replace the 40+ year old existing sewer line with ABS arctic pipe. The old line has been plagued with freeze-ups, blockages and marginal repairs. The line runs underneath a roadway which causes the frost line to be driven down.

Rural Trooper Housing Nenana Well- Drill a new well in a different location to replace the old driven well that has very poor production and is too close to the septic system.

Rural Trooper Housing Nenana Septic System --Replace 12 to 15 year old shallow system that does not have the State minimum 100ft. separation from the well.

ANALYSIS OF ESTIMATED OPERATING COSTS

No additional operating costs will be incurred as a result of this project.

IMPACT OF NOT RECEIVING REQUEST

The only alternative solution would be to lease space rather than occupy state-owned housing units. This would result in additional operational lease costs.
